FICTIONAL BUSINESS PROFILE / C3 ASSIGNMENT

Cedar Tutoring

Clear fundamentals. Bilingual support. Guided practice.

Purpose and audience

We help university students in Lebanon understand programming and introductory AI through clear explanations and guided practice. All sessions take place online in English or Arabic. Our unique value is accessible bilingual support focused on university-level fundamentals.

Services

Python basics: $20 per 60-minute one-to-one session.
Introductory AI/ML: $25 per 60-minute one-to-one session.
Introductory call: free, 15 minutes.
A short practice worksheet is included after every paid session.

People and hours

Maya Haddad teaches Python. **Karim Nasser** teaches introductory AI/ML.
Business hours: Monday to Friday, 10:00-18:00 Beirut time.
Business hours do not confirm a tutor's availability.

Contact and follow-up

hello@cedartutoring.example is a fictional, non-deliverable address used only for this assignment. The assistant answers questions from these business documents and collects a customer's name, email, and request for human follow-up.

Assistant limits

The assistant cannot book sessions or calls, take payments, confirm tutor availability, or promise outcomes. Refund policies, discounts, guarantees, and live scheduling information are not provided. Unanswered questions are recorded for follow-up instead of guessed.
